PREFACE

This volume is a collection of papers presented in the 55th TEFLIN (Teachers of English as a Foreign Language in Indonesia) International Conference hosted by Syarif Hidayatullah State Islamic University Jakarta and held on December 4-6, 2007.

The 55th TEFLIN Conference succeeded in accumulating 179 papers on the general theme of 'Human Resources Development in English Language Teaching' of which 154 were selected by the Steering Committee to be presented in the three-day conference.

However, not all papers presented in the conference are to be found in this volume. The Organizing Committee had set the deadline for the submission of complete papers in order to be published as proceedings of the conference. Up to the last minutes, 98 speakers sent their complete papers to the Committee and accordingly those papers are included in this volume.

These 98 papers are divided into eight groups in accordance with the topic areas. The eight topic areas are *Language Teachers Development, Learning Styles and Strategies, Language Assessments, English for Specific Purposes, IT in ELT, Literature in English Language Teaching, and ELT Materials.*

We hope that the publication of this TEFL anthology will serve its purpose in enhancing English language teaching in Indonesia for the benefit of the national development as a whole.

Jakarta, December 2007
