Ref.: Ms. No. OPEM-D-11-00093R1
 Gynura procumbens MODULATES THE MICROTUBULES INTEGRITY AND ENHANCES DISTINCT MECHANISM ON DOXORUBICIN AND 5-FLUOROURACIL-INDUCED BREAST CANCER CELL DEATH
 Oriental Pharmacy and Experimental Medicine

Dear Mr Meiyanto,
 I am pleased to tell you that your work has now been accepted for publication in Oriental Pharmacy and Experimental Medicine.
 It was accepted on 29-01-2012.
 Thank you for submitting your work to this journal.

Assalaamu'alaikum wr wb.

Please check the comment of your manuscript bellow:

Reviewers' comments:

This paper demonstrates the anti-tumor effect of combination of FEG and chemotherpeutic agents in human breast cancer cell lines MCF-7 and T47D cells. The data provided and the experimental scheme well performed. The authors have done a good amount of work; however, they have to address some queries raised below.

- 1) In Abstract: Please modify one paragraph in the Abs.
- 2) All figures should be unified the agent labeling as indicated as FEG, DMSO, DOX, 5-FU.
- 3) In Fig. 2: The color of labeling should be changed with black, but not white.
- 4) What does mean Waktu (jam) and nc (Fig. 2)? Clarify.
- 5) In Fig. 4B: 24 jam and 48 jam should be replaced with 24 hs and 48 hs.

Dear all,
Our article has been published at springer-OPEM journal as informed in the following

FW e-mail:

Springer: Electronic Publication of Your Article
Online First: your article is published 26.02.2012

visit us at springer.com

Congratulations

Dear Springer Author,
Your article

"Gynura procumbens modulates the microtubules integrity and enhances distinct mechanism on doxorubicin and 5-flurouracil-induced breast cancer cell death"

has just been published and is available as 'Online First' on SpringerLink:

http://www.springerlink.com/openurl.asp?genre=article&id=doi:10.1007/s13596-012-0063-5&cm_mmc=event- -articleAuthor- -onlineFirst- -0

It is fully accessible to all users at libraries and institutions that have purchased a SpringerLink license. If your article is published under one of our Open Access programs, it will be freely accessible to any user.

Citation Information

As an 'Online First' article, your paper is fully citable even before the journal's full issue has been compiled! Your article can be cited by its unique Digital Object Identifier (DOI) **10.1007/s13596-012-0063-5** in the following form:

Author, Journal Title, Year, DOI

Later on, after inclusion of your article in the paginated journal issue, please continue to use the DOI alongside the usual citation details in order to enable readers to easily find the article in print and online.

Download Your e-Offprint (PDF file)

Your 'Online First' electronic offprint is now available! Download your PDF file using the following link:

<http://www.springer.com/home?SGWID=0-0-1003-0-0&aqId=2238338&download=1&checkval=e692b807e57237bd99a1859333ed341e>

If the PDF file does not open automatically, please copy and paste the URL into your browser window. Please note that your free e-offprint will only be available for four weeks!

Your article will be assigned to a specific journal issue. After the production of that issue has been completed, you will be notified by email and a new, paginated e-offprint will become available to you as a free PDF-download. Any additional (printed) offprints or posters you might have ordered will then be shipped to you.

We encourage you to forward this email to your co-authors and mention your article and its DOI on your website or your social media profiles.

Thank you again for publishing with Springer. We look forward to your future contributions!

Best regards,

Your Springer Marketing Team

P.S.: For more information about publishing with us, visit our author website at springer.com/authors, where you will find valuable services. If you have any further questions, please feel free to contact our Author Helpdesk
